NOTICE TO WATER USERS.

State Fingineer's Office, Salt Lake City, tith, March 3, 1926. One License Tag.

In the not distant future, if it is not loo much to assume that one day the prace treaty will be ratified, there will be legislation at Washington for a license for motor gars that will either make the state license suffice for national use, or bring about the issuance of a strictly Federal license, the revenue from which would go to the state in which the motorist resided. In any event it seems to us one tag for touring on any property of the United.

priced fine cars on the market, the Chandler automobile checks up with

the ten best known and highest priced cars in America in seven of the most important motor car features that are recognized as characteristic of quality constitution, says Mr. Willions of the Willions Glasmann Motor company, local distributors for Chandler and Cleveland cars. The information came in the form

of a report of an exabustive comparison survey recently made of all cars on the market by Chandler executives Seven of the most important characteristics of superfine construction found in ten leading high-priced cars, as against the moderate factory list price of the Chandler, were selected as the basis for the comparisons.

The Chandler included every one of the quality features, while ten other cars, all selling for more money than the Chandler, failed to show more than three of the features. Most of them could boast of only one or two, according to the report which was verified by the makers of the ten highest priced cars on the market.

The seven most widely recognized features of mechanical perfection found in the ten high-grade makes are motive association will be a truck and Weber county will be identific an aluminum motor base, silent chain drive for motor shalts, torque or tube erm, annular ball-bearing transmis-sion, annular ball-bearing differential, SCRAPING CYLINDERS annular ball-bearing wheels and a high tion in the mountain country.
